IN Offering this stock of goods to the inhabitants of Newport and vicinity, I am aware that the satisfaction of making a good bargain is incomplete—it is not realized when the purchaser does not know that he is receiving for his money the very best return. To give, in this case, full assurance, I will say, that whilst the above goods are too valuable to allow of being purchased at low prices than other goods in market, I will notwithstanding, sell them at such prices as cannot fail to secure a continuance of that custom which I already have so largely and so liberally received.

THE UNKINDEST CUT OF ALL.—A jeweller in New York was lately applied to by a nice looking man, to make a gold ring for him, having in it a blade, very delicate and keen, concealed except on a narrow scrutiny, and opening with a spring. The bargain was made to furnish it for thirty dollars. On the appointed day, the purchaser appeared, paid the stipulated price, which was fobbed very complacently, and with an air of high satisfaction put it on his finger. The jeweller of course very innocently asked what he wanted to do with such an article, to which the reply was to cut open pockets with.

"Ah," replied the jeweller, doubtless in amazement, "how can you do such things with such an instrument and not be detected?" The performer replied that his art consisted in diverting the attention of the people from anything that looked like a design upon them.—That he rubbed his forehead, adjusted his hat, &c., and that discovery came to late. He then bade him good morning and went his way. Shortly after, the jeweller, as he walked round the counter, was accosted by the clerk. "Why, what is the matter with your pantaloons? How came you to tear them so?"

"Nothing that I know of," was the answer. "Where?"

"Why, just look!" When lo! his pocket was found to be cut by the artist, with his new instrument, and his pocketbook gone, with not only the thirty dollars just paid but four hundred besides. Verdict of the public: Served him right.

The grave containing the remains of the Americans killed by the British in Cambridge, on their retreat from Lexington, April 19th, 1775, was opened last week in order to erect a monument to their memory. Their bones were found in an excellent state of preservation. The snows of seventy-three winters had covered them, yet still were to be seen remnants of their clothing, rusty buttons an old shot pouch, two flints, stockings adhering to the their shoes, &c.

THE DAILY NEWS.

Newport:

MONDAY MAY 23, 1847.

BY O. F. JACKSON, 37, THAMES-ST.

ADVERTISERS will please bear in mind that the circulation of the DAILY NEWS is greater than that of any other paper published in Newport, or the combined circulation of any two papers issued from one office. As one proof of this fact, the list of Letters remaining in the Post Office are advertised in THIS PAPER, as BY LAW REQUIRED.

Gen. Scott has declined all invitations for public receptions, and all demonstrations of respect, on his return to the United States, giving, as a reason for this, as he is laboring under the displeasure of the Executive, he does not think it proper to do anything which shall call forth the hearty and spontaneous feelings of his countrymen. He has said that he shall land below the Narrows, at New York, from the vessel which brings him from Vera Cruz, and proceed quietly to his family in New Jersey. But the good people of New York and New Jersey do not appear to be at all inclined to permit the old hero to carry out his own wishes. The Jersey people have already stationed a steamer beyond the Hook to watch for the approach of the vessel containing the General, and we presume to take him from her, whether he is willing or not. Col. Crane, who is stationed at Fort Hamilton, below the City, has made arrangements to receive a telegraphic announcement of the arrival, and will then fire a salute, that the New Yorkers may be prepared to welcome the hero as he reaches the city.

All this is the result of the high estimation in which Gen. Scott is held by the people of this country, without distinction of party, for the distinguished services which he has rendered the nation, at various times, on the field. And they also feel that great injustice has been done him recently in Mexico, and consequently they intend to give him such a welcome as shall convince him that the nation at large is grateful for his many services through a long series of years, and that they justly appreciate his genius which has enrolled his name on the pages of history as the greatest living Military General. All this must be extremely gratifying to Gen. Scott and his companions in arms, who best know how to value his services.

While viewing the different Fire companies in Providence, at the Vinton funeral, we could not help comparing them with our uniform companies. Ours are far superior in every respect, and particularly as regards the neatness and beauty of the uniform, and especially in the discipline and drill of the men. We will put our Firemen against any in the country, for we know that they would lead off the palm of victory in all respects.

On Saturday our town was visited by a party of fifty or sixty young ladies from the Seminary, in Greenwich, on an excursion. They looked very pretty with their Swiss hats on, and we hope they had a pleasant time.

Mr. Isaac R. Spooner has leased the Tuoro street House, which has always been kept by the late Charles Whitfield; it will be opened immediately for the reception of summer boarders.

MURDER IN BOSTON.—Three persons were arraigned for murder in Boston, last Tuesday; Sarah Jane Pickerton, charged with poisoning her mother; James Murphy, for beating his wife to death and throwing her down stairs; and Augustus Dutce, charged with shooting a girl by the name of Ellen Oakes—all the prisoners pleaded not guilty.

DAMAGES AGAINST A RAILROAD COMPANY.—Mr. Temple has recovered \$3,200 damages against the Fall River Railroad Company, for injuries received by him in consequence of the collision at the Randolph station.

MISSING MAN.—The Woonsocket Patriot says that Mr. Nehemiah Manchester, a highly respectable citizen of that village, left his home on the morning of the 12th inst., since which period nothing has been heard from him. He has left a large family who are laboring under the most agonizing suspense in relation to him.

The cases of vomito at Vera Cruz, at the last date, were about thirty a week.

TRAVELLING ON A WIRE.—Passing over the chasm separating the United States and Canada, suspended on a single wire, says the Buffalo Commercial, is a very serious trial to the nerves of the passengers. As far as the centre all goes on rapidly enough—then a delay of a minute or so, which seems remarkably long, ensues, and then comes the slow process of winding up the ascent to the other side, during which, however, unwilling to make a pun, the traveller is forcibly reminded that a state of suspension is also a state of suspense. The charge for the trip across is now fixed at \$1. The suspension bridge will have a span of 800 feet, be 230 feet high from the water, and be 28 feet wide, affording two carriage tracks, two sidewalks, and a track for the railroad cars. At each end will be two solid stone towers for supporting the cables, 68 feet in height and 14 feet square at the base. The bridge will be suspended on sixteen cables, each of 600 No. 10 wires, firmly secured in deep pits drilled into the solid rock. When completed it is to be capable of sustaining a weight of 200 tons in the centre. The calculated power of tension of the wires is 650 tons. The cost of the whole work is not to exceed \$190,000.

VIRGINIA OYSTER LAW REPEALED.—The following letter to one of our city officers, says the New Haven Journal, from a gentleman in Virginia, is of interest to our oyster traders, giving them information in regard to the repeal of the oyster law of that State.

Sir: This obnoxious oyster law of Virginia is repealed so far that vessels of any tonnage can trade with oysters, by the captain's exhibiting his vessel's papers to any county court clerk, and paying one dollar for his license to trade one season. The trade will find no obstacle or difficulty in this arrangement. The object of the law is to be informed of the vessels and captains in the trade here.

FROM MATAMORAS.—The Gloucester Civilian has news from Matamoras to the 1st. The Rio Grande has in some places overflowed its banks. The corps was in very good condition. Business was dull, the Matamoras market being overstocked. The Mexican population along the Rio Grande in general disapprove of the treaty, and doubt its ratification by the Government.

PRINTING OFFICE BURNED.—The office of the Spirit of the Times, in Philadelphia, was accidentally burned at 2 o'clock, Friday morning. The building was gutted; but the forms, and part of the type and books were saved.

THE KIDD HUNTER.—Henry C. Carpenter, who has just recovered \$5,000 of the Kidd Snivage Company, at New York, has another action pending against the bubble-blowers for fraud. The company is said to have netted about \$500,000 by its operations.

The Irish Relief Committee publish their proceedings from February, 1837, to 1st Feb. 1848. The amount received in money by the committee, was \$171,374 24, and in breadstuffs, clothing, &c., \$70,650 55, making a total of \$242,024 79.

A tremendous hail storm visited Renwickville on Wednesday last. Raymond & Co's Menagerie was exhibiting there at the time, and about 1800 persons were in the vast tent when the hurricane struck the canvass. The supports were instantly prostrated and the audience buried beneath the folds of the canvass. The scene was one which beggars description. Fortunately no one was seriously injured.

GUILTY.—A telegraphic dispatch says that the jury in the case of Langfeldt, the German, who has been on trial in Philadelphia for the murder of Rademacher, have brought in a verdict of guilty.

HUDSON RIVER RAILROAD.—This road is not to be abandoned. The Directors intend to open it through to Albany on the 1st of April, 1850.

From Smith and R. S. Baldwin have been chosen Senators from Connecticut.

The Republican Herald, Providence, appears in new type; an evidence of prosperity which we are always glad of.

A steamboat between New London and Hartford, is to commence running in a few days.

Power's Greek Slave has arrived in Philadelphia.

CONGRESSIONAL.—In the Senate, Thursday, after some unimportant business, Mr. Johnson's resolution relative to the deferred nominations was taken up, when Mr. Allen of Ohio spoke violently against the measure. Passed over. A motion to adjourn from Monday to Thursday of next week, was adopted and the Senate adjourned.

In the House nothing of importance transpired.

In the Senate, Mr. Dix, from the committee on commerce, reported a bill to permit the Spanish steamers to land passengers and mails in our ports without paying tonnage duties, which was read a third time and passed. Also a bill authorizing the issue of registers to Howards & Son's Spanish steamers, which was also read a third time and passed.

ATTESTED BEFORE THE MAYOR OF NEW YORK CITY. Consumption and Affection of the Liver cured of Twenty Years Standing.

City of New York, July 24, 1847.

THIS is to certify that I, Nelson Larabee, of Jersey City, have for a period of twenty years been subject to a dry hacking cough and a pain in the side and chest, attended with night sweats and general weakness of the system, and have been pronounced incurably consumptive. Neither the advice of regular physicians nor the many advertised remedies I have taken have been of any permanent benefit, and I was yielding hopelessly to the progress of my disease, when I was persuaded to try E. W. Vandersmith's Indian Cough Balm and Lung Balsam, by the aid of which all my symptoms have been removed and I have been wonderfully restored to the blessings of health and the prospect of a prolonged existence; in gratitude for which, and in the hope of benefiting others, I solemnly testify to the facts in this certificate.

NELSON LARABEE, Jersey City.

Sworn to before me, this 21st day of July, 1847.

WM. V. BRADY, Mayor of the City of New York.

P. S.—If any person wishes to see me relative to my disease, they can call on board the New Jersey Ferry Boat foot of Courtlandt-st., N. Y.

Remarkable Cure of Mrs. Flemington of Fishkill, New York.

New York, April 1, 1848.

Dr. Vandersmith:—My wife has been afflicted for seven years, with an affection of the lungs, accompanied with a pain in the chest and side, difficulty in breathing, and general debility. I employed the best medical skill, and they finally pronounced her lungs diseased, and consequently despaired of effecting a cure. I was induced, by the representation of a friend, to try Dr. Vandersmith's Indian Cough Balm and Lung Balsam. I sent to New York for the medicine. Before she commenced taking the medicine, she was confined to her bed; her cough was incessant. After she had taken the medicine, the third day her cough abated considerably; she expectorated a great quantity of yellow matter; her difficulty in breathing subsided. Our family physician, who formerly attended her, called to see her and he said she was improving; and advised her to continue the medicine. Although she was much emaciated from the disease, she has been restored to health, and is as able to attend to her domestic duties as she ever was. I can with confidence recommend Dr. Vandersmith's Indian Cough Balm and Lung Balsam to Consumptives.

Phalon's Chemical Hair Invigorator.
A REMEDY for all diseases of the Hair, and is restorative in all cases where baldness is not beyond the reach of art.
Naught with beauty can compare,
With soft, glossy locks of hair;
If not endowed with such by nature,
Use Phalon's Hair Invigorator.

The subscriber having devoted a considerable portion of his time for twenty years to the study of the skin and the human hair, also the best means of treating and curing the same, and having, in the course of his experiments made various changes and improvements in the different articles approved as the best for such purposes, has at length, after laborious research and deep investigation, succeeded in bringing to perfection a composition, the virtues of which he challenges the world to excel.

The Chemical Hair Invigorator is composed of a number of vegetable ingredients of opposite qualities, and approved by the highest medical standard, the secret of blending and combining, which is known only to the subscriber, who has spared neither pains nor expense in bringing it before the public.

The Invigorator is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture of the hair never before attained, yet free from animal grease or essential oils. It cleanses the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so—will positively change the hardest hair into the most soft and healthy and glossy state, also imparts to it a darker color, and a free use of it will keep both the skin and hair in a healthy and luxuriant state until the last period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moistened with the Invigorator can be dressed in any required form, so as to preserve its place whether plain or in curls. When used on children's heads it lays the foundation of a good head of hair.

Invented and prepared by EDWARD PHALON, professor of Wig Making and Hair Cutting, 61 Broadway, New York.

A treatment on the Anatomy and Physiology of the Hair, with directions for preventing baldness, removing dandruff and preserving the natural beauty and softness of the hair.

Coggeshall & Bliss' Patent Cooking Range.
THE subscriber has just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public.

This Range may be set in the ordinary fire place, and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.

Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.

This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel than the old fashioned Ranges, or cook stoves. It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains and Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.

The subscriber has one of these Ranges in operation at his store, where the public are invited to call and examine it, and if they will, they may at once discover its utility. He also keeps constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c.

Mutual Benefit Life Insurance Co.

(Office No. 21 Wall-st., N. Y.)

A company organized by the System of Life Insurance now in successful operation in this country.

1st. Those in good health, of the proper age, and of sound constitution, will be insured at the lowest rate of premiums.

2d. The premium, if over \$50, can be paid one-fourth in cash, and three-fourths in a secured note at 12 months, bearing 6 per cent. interest, and subject to assessments if required, or it may be paid weekly, monthly, or quarterly.

3d. Annual division of profits in scrip certificates which bear 6 per cent. interest, and if required a loan of two-thirds on the scrip will be made in cash—or the profits can be added to increase the sum insured.

4th. No persons are liable beyond the amount of their premiums.

5th. Married women may insure the lives of their husbands, secure from any demands of their creditors, if the premium does not exceed \$300 per annum.

6th. Creditors may insure their debtors; or debtors themselves, for the protection of creditors.

7th. An insurance can be made so that the sum insured will be paid on attaining a specified age, or sooner in the event of death.

8th. All claims on policies will be paid three months after notice and proof of death.

9th. No risk will be taken on any one life exceeding \$5000, until the surplus profits amount to \$50,000; then the amount of risk on a single life will be gradually extended as the funds of the Company augment.

10th. No Director or Officer can obtain a loan of the Company.

11th. When the net profits of the Company amount to \$200,000, the excess will be applied towards the redemption of Scrip, giving priority to that first issued; but the amount of \$200,000, in addition to the reinsurance fund, will be kept as a permanent fund, in which the members have a pro rata interest.

12th. The funds of the Company to be invested by the Finance Committee in bonds and first mortgages on unencumbered real estate, the actual value of which is twice the amount loaned—or in stocks of the United States, or of the States of N. York, New Jersey, Massachusetts, and Maine, or loaned to members on their Scrip.

13th. No part of the profits is withheld, or diverted from the assured in any way.

14th. There is no stock or loan, either nominal or real, to pay interest for; the company having ample capital in the premiums received.

15th. It enables a man to provide for a wife and children, in such a way, that although he may lose all, they are safe; and all persons, whether married or unmarried, to provide for old age, sickness, and what, as well as for death.

16th. It does not reckon the assured a year older than he is—but from six months less, to six months more, so as to equalize the same between all parties.

17th. It pays no directors, auditors, or solicitors.

18th. A portion of the directors and the officers are chosen yearly, and the members vote according to interest.

19th. The assured can surrender the policy at any time after a term of years, and receive its equitable value.

20th. Every precaution is taken to prevent a forfeiture of policy.

The Mutual Benefit Life Insurance Company, is authorized by its charter to make all and every insurance appertaining to or connected with Life risks, of whatsoever kind or nature, and will grant annuities and make endowments, as by the Act of Incorporation, passed the 30th January, 1845.

The Directors of this Company, deeply impressed with the very great, useful, and growing importance to the community at large of Life Insurance, would call the attention of the public to the following observations: a principle, as intended to explain to them its peculiar advantages, and the particular features of this valuable institution. It is seen above how extensive the privileges are, reaching to every risk appertaining to or connected with life; guarding and supporting infancy to old age, in all grades of professions and trades; orphans, widows and their children, by a small annual investment, on the principle of Mutual Benefit, arising from Mutual Insurance, being a self-protective society. In this there is no Money Stock; the funds or capital arise from premiums paid in when persons make insurance, and these form the means to make payments on policies, grant loans, pay expenses, and yield profits. All persons insured become members, but are not liable beyond the amount of the premiums to be paid by them. The books of the company are open to them, to see that the sums paid, or securities received, are deposited or invested according to the charter, and the net profits, at fixed periods, are divided among them, as hereafter explained. The table of figures, and the rules, are made and calculated with accuracy, after the experience and practice of old English companies, and all persons can see by them how much they have to pay, and thence they will be likely to receive. This plan, as the *Savings Bank and Mutual Insurance*, affording the security of the one, and gain of the other, and is entirely benevolent in its operation; it also embraces a provision for Married Women to insure the lives of their husbands for any amount, the premium of which shall not exceed \$300 per annum, and is secured to them against any demands in law, of creditors.

The greatest portion of society, who by daily exertions in a busy career, support, as it were, the world, deriving livelihood from personal labor and skill, seldom resort to Life Insurance, in any numbers, for a future provision for their families, though to none would it be so important as to them, who, by sickness and death, may in a day, leave those nearest and dearest to them in poverty. To men in mercantile pursuits and those in professional business of every rank and class, or those who have uncertain or small incomes, and who are not numerous in wealth in the aggregate, and have it in their power to provide against the vicissitudes they are constantly exposed to, Life Insurance is also of the utmost importance; they, and those in lower circumstances, are often deterred from entering into contracts of insurance, as the advantages appear remote—being contingent on death, or ability to pay the premiums.

To assist all such, this Mutual Benefit society so arranges the payment of the premiums, and of returns in part of the same, as to enable all persons to become members, and enjoy its advantages while living; thus protecting themselves in life, and providing for their families after their death; in this way a short life may obtain, and leave to their heirs the benefit of a long one.

This Company will grant insurance on lives, on

the Mutual principle, to applicants upon their own lives, or the lives of others, for the whole duration of life, or for a limited period, at the rates specified in the tables, for sound and healthy persons. Also, any person in sound health may insure \$500 for life upon his own or his wife's life, or the wife upon the life of her husband, or the age of thirty years, (and in like proportion for other ages,) by paying 25 cents weekly, or on \$1000 by paying 50 cents weekly, the policy always remaining with the Company, with the premiums paid endorsed thereon; and in case of death they will be entitled to the amount thus insured, deducting from the balance remaining of weekly payments, with interest, for the current year. No risk will be taken on a single life for more than \$5,000, until the profits of the Company amount to \$50,000, after which, according to the profits, the amount will be gradually extended to a sum not exceeding \$15,000.

The better to enable all persons to insure, the Company will annually issue Scrip certificates, of estimated profits, bearing interest at 6 per cent.—Whenever the accumulation of net profits of the Company shall exceed the sum of \$200,000, the excess may be applied from year to year, or semi-annually thereafter, towards the redemption of each year's certificates of scrip, in whole or in part, as may be determined on by the board of directors, priority to be given to the scrip first issued. The insured may borrow from the Company on his scrip, two-thirds of the amount of the same at any time, which will enable him to use a portion of his profits for the payment of his annual premium, even before the redemption of the scrip. All classes of persons will thus be admitted and enabled to meet the premiums, and have the gain of the *Savings Bank*, with the profit on a large business, by an actual small investment or outlay of money.

All claims for insurance will be paid three months after satisfactory evidence of the death of the person deceased is exhibited and approved.

Should it any time be desirable for a person to sell his policy, where it is for life, the Company will purchase the same at an equitable rate.

Parties insured at the table rates of premiums, are not to pass south of the Southern line of Virginia and Kentucky, or east of the Mississippi River, between the first day of June and first day of November; but can visit any part of the United States or Northern British Provinces, between the first of November and first of June. By the payment of an extra premium, insurances can be effected by persons who desire to reside South during the interdicted time.

All persons whose lives are insured by this company, are permitted to travel on any of the regular mail routes, (within the limits prescribed in the policy) or on any of the Northern or Upper Lakes, by steamboat or other common mode of conveyance.

Extra hazardous risks will be taken on persons going out, or residing out of the limits of the policy, and embracing all parts of the world; also on all persons going to sea, and such other risks as may be specially agreed for, being more hazardous, to be expressed in their policies. The extra premiums to be computed upon equitable principles.

Insurances will be made on the lives of Military and Naval Officers, off or on duty, in time of peace, the premium to be settled according to circumstances of climate, locality, &c., as they may be more or less hazardous.

What can better illustrate the wise disposition of the Supreme Being, in the varying term of human life, than the certainty of the general laws that regulate its duration, and the reflections that arise from the contemplation of these laws operating constantly upon the human race? Life Insurance then rests upon the simple fact, that every individual of the human race has, at the period of his birth, a certain term of existence, which he will live through, or what is called the mean duration, or expectation of life at birth.

It is a question how such term of existence, or mean duration, is found. This is done simply by taking the number of years that have been lived through by a party from birth to death, and also of 1000 others born at the same time, and dying at all ages from 1 to 100 years old—the number of years thus lived by each person is added into one sum and being divided by the number of persons, the mean duration of the life of man is ascertained.

If it were found on trial, that on taking the result of the lives of 1,000 or 10,000 individuals, and deducing the mean duration, and then going through the same process with like numbers, and the mean duration of the latter differed widely from the former, it would be to no purpose to follow out experiments; but this is not the fact, and in nothing is the uniformity of the general laws of nature more powerfully exemplified, than in regulating the period of human existence. The result of experience is constant, that two bodies of individuals, each of 1000, living in the same country, and of similar occupations, have each a period of mean duration, which differs only a trifle from that of the other body. Apply this to insurance on life in the same body of persons; they pay a small sum or premium, annually, and the office, or Company, agrees to pay them annually a profit, and a certain sum at the death of each; as, by example, the average expectancy of life is found by experience, to be of a person in health of 25 years, 33 years more; and of 40 years 23 years longer; then by the tables of rates, the first has to pay \$20 40-100 a year during his life, to secure \$1000 to be paid to his wife or children after his death; the second pays \$32, to insure the same; then taking the gain of interest, and other items, that make up the profits on Mutual Insurance, it is almost certain the amount of \$1000 insured will be much increased, when in the end it is to be paid to his heirs, all which is firmly established by the facts of experience. Life Insurance, therefore, on Mutual Benefits, is not a fictitious scheme to draw people into, for money-making purposes. Such an idea, if it exists, is most incorrect, and dissolved at once by the very fact, that this is a Mutual Benefit Company, and consequently any person taking out a policy, becomes a member by a small annual payment, and has a joint interest in its concerns, and a voice in its management.—Founded on scientific principles, exemplified by experience, its real services then to all classes of persons, who are dependent on certain incomes, or salaries, professions, mechanical skill, or daily labor cannot be denied; and it has proved essentially beneficial to the families of such, in event of death, and is therefore an institution ranking among the noblest works of benevolence in the world.

Such being the equitable and beneficial principles on which Mutual Life Insurance is established, it presents a most suitable and favorable means of providing for the endeared and dependent lives of children; for what is the situation of a man, who, for the gratification of his affections,

surrounds himself with a wife and children, and lives in the enjoyment of those valued blessings, and knowing that in an instant, the cessation of his life may throw them into a state of destitution! The neglect, then, of such a cheap and certain provision, is gross improvidence; for it is not mere a man's absolute duty, to provide while he lives the daily bread for his family, than it is against leaving them to suffer penniless misery in the event of his death. It is then a religious as well as moral duty, to be easily accomplished by weekly, monthly, or yearly earnings—and this Life Insurance of *Mutual Benefit*, is the protection against such dreadful evils.

The observations and explanations above made on the principles of Life Insurance generally, and particularly the great and very superior advantages exhibited to the public by insuring in this Mutual Benefit Company; the credit which policies will give to men in trade, the gain it may be to all classes in their business vocations, and the duty of all to provide for their families, should induce every person to give this subject a careful consideration, remembering the injunction of Scripture, that "if any provide not for his own, and especially for them of his own house, he hath denied the faith, and is worse than an infidel."

Hyer's Pills.
The American Improved Hygienic Vegetable

SAFE, CHEAP AND EFFECTIVE.
This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but uses all its claims upon plain common sense principles, as a simple and nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties.

During the last twenty years it has worked its way into extensive use, wholly upon its own merits, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

The Good Things of the Season, FOR Parties, Holiday Presents, &c.

WINTER evenings and YOUNG'S Variety Store form pleasant associations for the inhabitants of Newport. There is nothing scarcely that can contribute to the comfort of all, that cannot be obtained at this store, and all as low and a great many much less than can be bought elsewhere in Newport. For example, we will attach the following prices, and every article is warranted.

Western Apples from \$1 75 to \$2 12 per bbl; shell-harks \$2 per bushel; peanuts \$1 62 per bushel; chestnuts from four to five dollars per bushel; almonds one shilling per pound; new raisins, figs, dates and currants 12 1/2 cts per pound; we sell these last named articles at wholesale prices. Prunes 20 cts per pound; grapes 25 cts; new citron 29 cts; preserved ginger \$1 12 per jar; or 30 cts per pound, in small quantities; candies and all kinds of confectionery cheaper than they have ever been sold at any other store in town, at wholesale and retail, always fresh and of the finest quality; for the truth of this we wish every one to come and judge for themselves.

This is no idle advertisement merely to draw people to my store to disappoint them, but a plain statement of facts, which all may ascertain by calling. Also several kinds of Cough Candy, warranted equal to any now in use, for the cure of all kinds of complaints arising from colds.

Fancy articles and toys of every description, in any quantity, such as silk purses, pocket books, cigar cases, pocket knives, scissors, razors, razor straps, hair, clothes, tooth, and shoe brushes, fancy work boxes, walking canes, dominoes, dice, conversation cards, French and Highland do, combs of all kinds, cologne, hair oil and pomatum, cigars, tobacco, and everything that is ever kept in a confectionary and variety store.

AGENT FOR THE CANTON & PEKIN TEA COMPANY
OF New York.

THIS Company, although it cannot boast of being "The oldest Tea Establishment in America," does claim to have sold during the two years of its existence, more good, pure, and unadulterated Teas, and at lower prices, than any other similar establishment in the United States.

The following is a list of their retail prices, which will be found to be nearly the same as those of similar Companies. The only difference they claim is in the quality of the Teas.
